Section 2. Financial Information

Item 2.02. Results of Operations and Financial Condition.

On February 27, 2009, we issued a press release announcing our earnings for the period ended December 31, 2008. A copy of our February 27, 2009 press release is attached hereto as Exhibit 99.1 and is incorporated herein by this reference. The press release contains statements intended as “forward-looking statements” which are subject to the cautionary statements about forward-looking statements set forth herein and therein.

The information above is being furnished, not filed, pursuant to Item 2.02 of Form 8-K. Accordingly, the information in Item 2.02 of this Current Report, including the press release attached hereto as Exhibit 99.1, will not be incorporated by reference into any registration statement filed by the Company under the Securities Act of 1933, as amended, unless specifically identified therein as being incorporated by reference.

Section 9. Financial Statements and Exhibits

Item 9.01. Financial Statements and Exhibits.

Exhibit 99.1 Press Release dated February 27, 2009

Forward-looking statements: Certain matters discussed in this Current Report on Form 8-K are “forward-looking statements.” The Private Securities Litigation Reform Act of 1995 has established that these statements qualify for safe harbors from liability. Forward-looking statements may include words like we “believe,” “anticipate,” “expect,” “likely,” “estimate,” “intend” or words of similar meaning. Forward-looking statements describe our future plans, objectives, expectations or goals and are based on assumptions by the management of the Company as of the date of this document. If management’s assumptions prove incorrect or should unanticipated circumstances arise, the Company’s actual results could differ materially from those anticipated. These differences could be caused by a number of factors or a combination of factors including, but not limited to, those factors described under the heading “Risk Factors” contained in the Company’s Annual Report on Form 10-K for the period ended December 31, 2008 as filed with the Securities and Exchange Commission. Readers are urged to consider such factors when evaluating any forward-looking statement, and the Company cautions you not to put undue reliance on any forward-looking statements. Any forward-looking statement speaks only as of the date such statement was made, and we do not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement was made except as required by applicable laws or regulations.

The information contained in this report is summary information that is intended to be considered in the context of our SEC filings and other public announcements that we may make, by press release or otherwise, from time to time. We disclaim any current intention to revise or

update the information contained in this report, although we may do so from time to time as our management believes is warranted. Any such updating may be made through the filing of other reports or documents with the SEC, through press releases or through other public disclosure.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

WESTAR ENERGY ANNOUNCES 2008 RESULTS

TOPEKA, Kan., Feb. 27, 2009 — Westar Energy, Inc. (NYSE:WR) today announced 2008 earnings of \$177.2 million, or \$1.70 per share, compared with 2007 earnings of \$167.4 million, or \$1.85 per share. Earnings for 2008 included a \$39.4 million, or \$0.38 per share, benefit from the completion of a federal income tax audit covering 1995 through 2002. Setting aside the benefit of the completed tax audit, 2008 earnings were \$137.8 million, or \$1.33 per share. The company reported fourth quarter 2008 earnings of \$22.6 million, or \$0.21 per share, compared with fourth quarter 2007 earnings of \$13.5 million, or \$0.15 per share.

The per share results for both the full year and quarter reflect an increase in the number of shares outstanding, of approximately 15 percent and 17 percent, respectively, as a result of the company having issued additional shares to fund capital investments.

2008 Full Year Results Compared with 2007 Full Year Results

Westar Energy reported 2008 revenues of \$1.84 billion compared with 2007 revenues of \$1.73 billion. Retail sales increased by \$102 million, or 9 percent, due primarily to recovery in prices of higher fuel and purchased power costs, offset in part by a 2 percent decrease in sales volumes attributable primarily to cooler weather and refunds to retail customers. Wholesale sales increased \$33 million, or 9 percent, due primarily to higher average prices, which offset a 6

percent decline in wholesale sales volumes. Energy marketing decreased \$23 million, or 61 percent, due to several factors, including: the effects of extended plant outages; more transactions being completed through regional transmission organization real-time markets rather than negotiated transactions between individual parties; and the impact of customer refunds and reserves related to prior period transactions.

Operating expenses increased \$165 million, due primarily to increased fuel and purchased power expense and higher depreciation expense. Fuel and purchased power expense increased \$150 million due principally to the higher unit cost of fuel and purchased power. Higher fuel and purchased power expenses are largely recovered through timely adjustments to the company's prices. Depreciation expense increased \$11 million due primarily to higher plant balances.

Other income for 2008 was \$4 million compared with other expense of \$1 million in 2007, an increase of \$5 million, due primarily to higher equity AFUDC and higher income from corporate-owned life insurance.

Income tax expense decreased \$60 million, due primarily to a \$29 million reversal of unrecognized income tax benefits due to the completion of the federal income tax audit for 1995 through 2002, lower taxable income and the recognition of \$15 million in state tax incentives related to investments and jobs creation within Kansas.

2008 Fourth Quarter Results Compared with 2007 Fourth Quarter Results

Westar Energy reported revenues of \$406 million for the fourth quarter 2008, an increase of \$13 million compared with revenues of \$393 million in 2007. Retail revenues increased by \$16 million, or 6 percent, due primarily to recovery in prices of higher fuel and purchased power costs. Wholesale sales increased \$6 million, or 6 percent, due primarily to higher average prices.

Energy marketing decreased \$6 million due principally to less favorable market conditions and recording a reserve for a \$3 million claim by an independent system operator related to prior period transactions.

Operating expenses increased \$8 million, reflecting primarily higher fuel and purchased power expense and higher depreciation expense. Fuel and purchased power expense increased \$9 million due primarily to the higher unit cost of fuel and recovery this year of previously deferred fuel and purchased power expense.

Other expense for 2008 was \$5 million compared with other income of \$1 million in 2007, a decrease of \$6 million due primarily to the recording of losses on investments held in a trust for retirement benefits. The loss on investments was partially offset by an increase in equity AFUDC.

Interest expense increased \$14 million due primarily to the interest on additional debt issued to fund the company's capital investments and the reversal in 2007 of \$9 million in interest expense associated with unrecognized tax benefits.

Income taxes decreased \$24 million due primarily to the recognition of \$15 million in state tax incentives related to investments and jobs creation within Kansas and lower taxable income.

2009 Earnings Guidance

The company announced earnings guidance for 2009 of \$1.65 to \$1.90 per share. The 2009 earnings guidance excludes an estimated \$0.30 per share benefit related to a tax settlement that will permit the company to utilize operating losses from its former non-regulated businesses. The company posted to its Web site a summary of the principal earnings drivers and adjustments used in arriving at 2009 earnings guidance. The summary is located under Investor Presentations within the Investors section of the company Web site at www.WestarEnergy.com.
